

*Are you a looking for an Exciting, Real Hands On and Challenging Internship?
This great opportunity could be for you!*

Supply Chain Internship Program

Overview:

Our 6 month paid internships are designed to provide each student with a complete professional work experience and to give the student exposure to the various career paths available in Supply Chain. Our interns provide support to sales personnel, corporate planning, outsourced product planners, and mill-level managers. The successful candidate will be placed in one of the following areas of concentration: Planning, Mill Operations, Transportation, Inventory Management, Customer Solutions or Supply Chain to ensure product is distributed to customers in accordance to their needs while maintaining efficient and effective business processes. In each area the focus is on providing a working knowledge of the entire supply chain and will include exposure to both the mill and corporate environments. Our program provides the opportunity to participate on cross-functional teams to support process improvement projects, focus on continual learning in the area of Supply Chain Management, make suggestions for process and systems improvements to help streamline the organization, and lead development of new procedures and the implementation of new ideas.

Corporate Intern:

Must have strong analytical and communication skills- verbal and written. Must be proficient in Excel- Access knowledge is a plus. The ability to learn new software applications quickly is mandatory.

Minimum Requirements:

- Pursuing Bachelor's Degree in Logistics, Transportation or Supply Chain Management
- Junior or Senior level student
